Some Were Killed.

NEW YORK, Sept. 9.—Notwithstanding the official report issued from the headquarters of the B. & O. Railroad company, at Baltimore last night, to the effect that no one was killed by the wreck on that road near Wheeling on Sunday night, the Herald this morning publishes a special from the latter place which contradicts the official statement. The Herald's special pronounces the wreck to have been one of the most disastrous in the history of the road. The disaster occurred at half past eleven o'clock about three quarters of a mile west of Lettleton. Four engines and fifty cars were reduced to scrap iron and kindling wood. The following is a list of the killed—J. Jeffers, fireman, of Parkersburg, W. Va.; Louden, brakeman; William Toothman, brakeman. Injured—S. S. Daly, conductor; Jas. Elliot, conductor; Dominick Kelly, engineer. Seriously—Lyle, fireman; Charles Lycht, engineer.

Opposed to Powderly's Reelection.

NEW YORK, Sept. 9.—A Pittsburg, Pa., special to the Herald says that a rumor prevails there among labor men that in the event of the reelection of General Master Workman Powderly, local assembly 300, window glass workers, will leave the Knights of Labor. The principal causes of dissatisfaction are said to be the mismanagement of the Central railroad difficulty, and too lavish expenditure of money by the general officers of the order, especially in the matter of salaries.

Four Hunters Killed.

NEW YORK, Sept. 9.—A Herald special from New Orleans says that while four men were out in a small boat alligator hunting on Lake Field, Lafouche parish, last Saturday, the boat was struck by ligtning. All four men were also struck by the bolt, three of them the Biot brothers, being killed. The fourth, named A. M. D. Verdain, was severely shocked, but recovered.

TROUBLES AT HAMILTON.

Weavers in the Wire Cloth Factory Strike Because of a Cut in Wages.

HAMILTON, Sept. 9.—All of the weavers in the Hamilton Wire Cloth factory, with the exception of four, struck work at half past one yesterday. The grievances of the employes as was given by themselves is about as follows: Last week a notice of a cut in the wages to take effect this morning was posted in the factory. This cut reduced the wages of the men who run either five or six looms, 15 cents per day, and those who run four looms 10 cents per day, no distinction being made between those who run five or six looms and no distinction between experienced and green hands. The men claim that the cut was unwarranted by the state of the market and that the superintendent, who has just had his own salery increased from $2,000 to $2,500 per annum, was the only man with the exception of the president of the company who was instrumental in cutting the wages of the men, and that few, if any, of the Board of Directors were aware of the proposed cut until the notice was posted. They claim that a stockholder has remarked that another cut would follow on or about January 1. And they are also under the impression that the recent lay off of three weeks is a reason for making the cut now, as they are naturally on that account short of funds. Personal visits in relation to the matter have been made by the men to the superintendent, but without obtaining any satisfaction, but no concerted action was taken until this noon when the men were informed that hereafter they would be required to remove the rolls from their looms, instead of having someone else do it for them as formerly. They worked until the time stated above and then left the factory in a body. They are very confident that their places cannot be filled and in this they may perhaps be right, for the number of persons engaged in that branch of labor in this country is very limited, and the men now on strike have the reputation of being unexcelled as weavers of wire cloth. I have visited the superintendent of the factory and he informs me that the charges as preferred by the strikers are ridiculous. He says he has not had an increase of salary or asked for one. That the company has been readjusting wages and not cutting, for there has been an increase of wages in many cases, and that the total wages are now in excess of those formerly paid. He seems to have no fear but what the strikers' places can be filled, for he says that if these men do not care to work there are others who do.

Burying the Victims.

SPOKANE FALLS, Wash., Sept. 9.—Yesterday morning at 10 o'clock funeral services for the victims of Saturday's explosion were held at the city morgue. The services were of an impressive character, and the bodies were followed by a long procession to the cemetery, where the coffins were placed in two trenches. The body of John Rhea was not buried with the others, as he has relatives in Colville. To-morrow the two victims who died at their homes will be interred. Fifteen thousand persons visited the scene of the accident on Sunday.

Injured by Gunpowder.

BRADDOCK, Pa., Sept. 9.—At noon, yesterday, a keg containing 100 pounds of gunpowder exploded at the stone quarry of McCrady & Hogg. William McDonald was blown to pieces, and the following named men were badly burned: George Albert, Albert Bunker, Tony Patroka, and James Thomas. The four men are so severely injured that they may die.

John Gomlay, whilom partner in fun of Louis Harrison in "Skipped by the Light of the moon," is in his native land, Australia, and is having great professional success there. Mr. Harrison has a little daughter who is said to show remarkable tallent for a 5-year-old. She is taking a course in spelling and word-building at present.

THE ALBANY WRECKERS.

IT IS NOW THOUGHT THERE WERE FIVE OF THEM.

Two Now in Custody—The Others can not be Found—Condemned by the K. of L.

ALBANY, Sept. 9.—The executive board of the Knights of Labor has secured writs of habeas corpus demanding the production in open court of Reed, Kiernan and Cordial, the three Knights charged with wrecking the train last Friday night. Of these three men were arrested a few days ago the whereabouts of but one is known and that is Kiernan who is locked up in the Troy jail. The other two cannot be located. It is said that Reed is locked up here at Supt. Bissell's office. The writs will be served this afternoon and the Knights hope by these means to find out where the men are kept. They assert that not only is it against the law to keep these men in secret confinment outside of a jail and without examination, but they say that no warrant has ever been issued for Reed. Even their families do not know where they are and no information will be given. The theory of the road officials is that five men did the wrecking and all five of their names are known, as the man Lou Miller arrested on Sunday night but since released, has identified them as stopping at his house for water that morning. Miller is now at work in the West Albany yards, but no information can be obtained from him, as the road will not allow him to be seen. The three men arrested as being wreckers are Reed, Cordial and Kiernan, and one other for whom a warrant is issued is Conrad Yager, who has skipped town and is not to be found. The name of the other is not known. Cordial, Reed and Yager, it is said, placed the obstruction on the track while the other two men kept watch. This afternoon Cordial was found to be in the Central depot and at about 1:30 was taken to Tory by detective Humphreys of the railroad. This afternoon a man who is intimately acquainted with Yager, disclosed the fact that he was in Chicago, having been there a week before the wrecking. He says he has letters that will prove the statement. Mrs. Yager, however, stated that her husband was in Buffalo.

HOUNDED OUT.

The First Vice-President of the World's Fair Association Resigns.

NEW YORK, Sept. 9.—A Chicago special to the Herald says: "Criticism has driven First Vice President Thomas B. Bryan out of the world's fair directory, his resignation having been written out yesterday afternoon. Some of the papers and one or two prominent men thought Mr. Bryan was getting too much, and that $10,000 was a pretty large salary for the work done by him and did not hesitate to say so. Mr. Bryan, notwithstanding the fact that the directors had the greatest confidence in him, concluded the game wasn't worth the candle, and tendered his resignation on the ground that there were too many high salaried men connected with the world's fair enterprise, at the same time suggesting that Secretary Butterworth could attend to the work. President Gage was very much put out when he heard of the resignation. He said Mr. Bryan had been hounded out of his position, and that he was a most efficient man and necessary to the success of the fair. Action will be taken at to-day's session of the directors when they meet to finally decide the question of the site.

DISTINGUISHED PASSENGERS.

Chauncey M. Depew and Archbishop Corrigan Expected to Land To-morrow.

NEW YORK, Sept. 9.—The White Star steamer Tutonic, which is expected to arrive to-morrow, will have more than the usual number of distinguished passengers, and for two of them, Chauncey M. Depew and Archbishop Corrigan, receptions of a more or less informal character are in preparation. Vice President C. C. Clarke, Supt. Toucey, J. B. Dutcher and W. J. Van Arsdale of the N. Y Central railroad will go down the bay at 6 a. m., to-morrow morning in a steamer with a delegation of officers and employes of the road to meet President Depew. Archbishop Corrigan and Monsignor O'Connell will be met down the bay by a large number of priests and laymen, who have chartered the steamboat Black Bird for the purpose. A reception will be tendered to the returned archbishop on Friday morning at St. Patrick's cathedral and a te deum will be sung after the reading of the address of the council.

An Old Lady's Sad Fate.

SHARON, Mass., Sept. 9.—Mrs. Mahala K. Paul, residing at 13 Cotting street, Boston, a widow, aged 82 years and quite deaf, was killed last evening while attempting to cross the railroad track here, by the 4:15 p. m. train out of Boston. She was thrown in the air and her clothing caught on the flagstaff on the front of the engine, where she hung, her head and feet dragging till the train was stopped. Her left leg was cut off, her arms broken and her ribs crushed. She lived about two hours.

The Snaith Case Adjourned.

ALBANY, Sept. 9.—The board of claims met this morning to take up the Snaith case. Counsel on both sides asked for an adjournment and the board granted the same, setting the case over until September 30.

A Mountain Train Wrecked

DEADWOOD, S. D., Sept. 9.—Sunday evening the passenger train over the Black Hills & Fort Pierre railroad ran into about 100 tons of rock that had fallen on the track about ten miles this side of Piedmont, derailing the engine and badly shaking up the passengers. A dispatch was sent by one of the road's officials for a wrecking train, and another official telephoned for a new engine. The engine and wrecking train collided and a complete wreck was the result. Fifteen or twenty passengers on the train were badly injured, but none seriously. The road is a narrow guage and is operated between Lead City and Piedmont by the Homestake Mining Co., and had just been opened to the public.
