Oswego Palladium: -Does he? Well, he lives in every town. He is generally a clever, careless feilow without much notice of business propriety and generally a little off as to good manners. He wouldn't do so if he stopped to think that good newspaper is a belograther! than a bindrapce to his town; that he'd rather there'd be one than not; that good newspaper making ie a bueiness in which labor and material unet he paid for as in his own; that good Lewspaper makers don't like to see printing go out of town when they CAB it just 'as weil and - just as cheap, because they can't stand that kind of patropage long; that be himself would feel that way if he were in dry goods, grocery, bout and since or any other trade.
